Brochure 2015

Our story

Kluskens Meubelcreaties manufactures a high-quality collection of solid wooden tables, chairs and cabinets. Our furniture is both attractive and functional, made with love and an eye for detail and is the proud result of old-fashioned Dutch craftsmanship.

Solid wood is a warm and honest material, which brings tranquillity to our hectic daily lives. With its weight and density, it is a source of strength and energy. Our tables invite communication and collaboration, providing a place to eat together and a natural place to work.

Work with quality. Live with quality.

Sustainability

We use the very best renewable materials that nature has to offer and treat them with respect and attention. Our products are made from the most popular types of wood: European oak, beech, walnut and cherry.

Working with solid wood, we create sustainable furniture of exceptional quality that will last for centuries.

Craftsmanship since 1974

The whole production process from sawing and seasoning the wood to finishing the end product takes place in our own factory in Nederweert. Stainless steel is also processed at our own workplace by skilled craftsmen. In this way we are able to guarantee the outstanding quality of all our creations.
