

Able Table

Design by Studio Plastique

Made by **Kluskens**

Able Table

Being it for work or leisure, the Able Table is a versatile surface designed to stand amidst our daily life. It has been developed by Plastique in collaboration with Kluskens Meubelcreaties over the course of two years. Both the designers and manufacturer have been working together closely in order to conceive a table that remains familiar to us in shape and materiality, yet innovates in its definition when it comes to position and function in our lives. The Able Table supports the various activities that converge on a table in the everyday with the flexibility needed in contemporary life. In this way it enables shifts between work, family and leisure. These dynamics are endorsed by a strong and lightweight second surface; a rattan frame that can be pulled from both ends as an ideal place for storing objects that rest in pause when switching activities. A wooden table is about trust. It is a warm and timeless material that like no other knows to host the moments of life.

a table to eat
a table to work
a table to meet
a table to move
a table for coffee
a table to improve
a table to change
a table to rearrange
a table to plant
a table to grant
a table to make decisions at
a table not to regret
a table for four
a table for more
a table for eight
a table to celebrate
a table to be alone
a table to store more than a phone
a table for generations
a table for all occasions
a table to love
a table for life

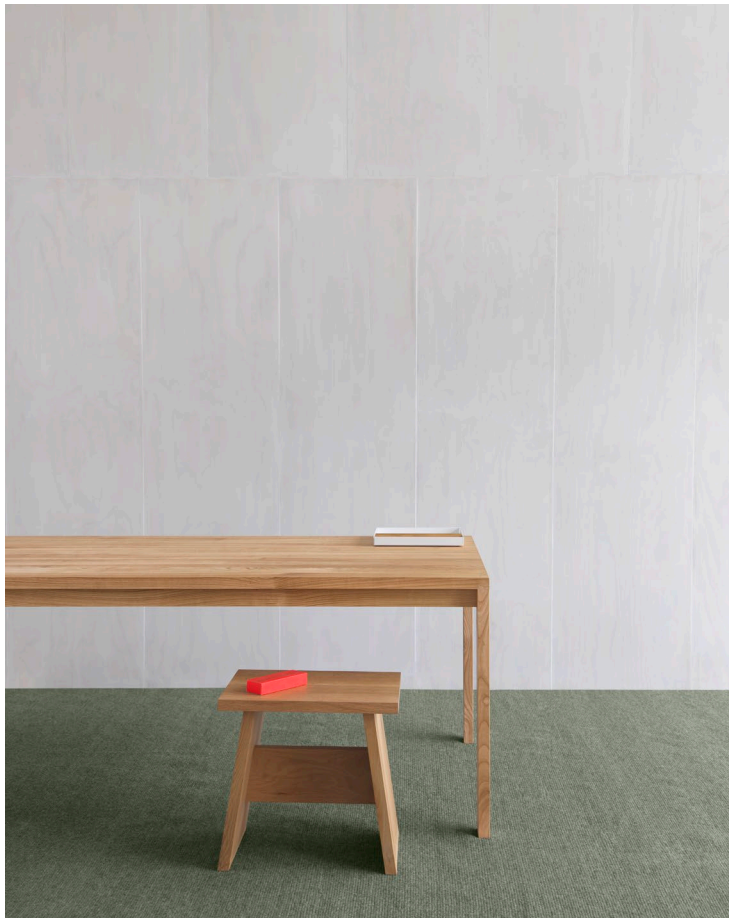

“ A wooden table is about trust.
It is a warm, timeless material
that like no other knows to host
the moments of life. ”

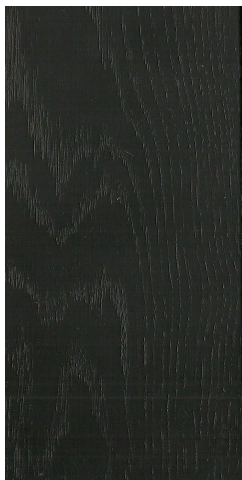

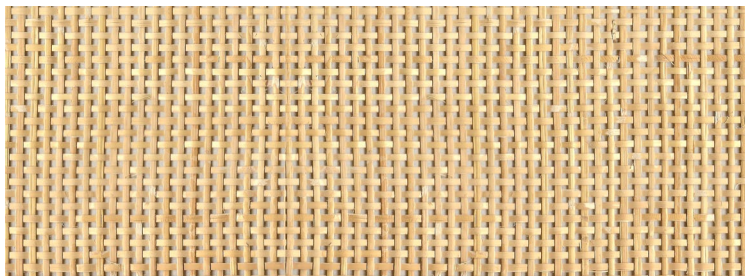

Second Surface

The second surface is all about life in motion, meaning both a lightweight and strong material is needed. It needs to move lightly yet endorse the impulses of life. The rattan radio weave is the material of choice as it gives support to our valuables in both a tender and secure manner.

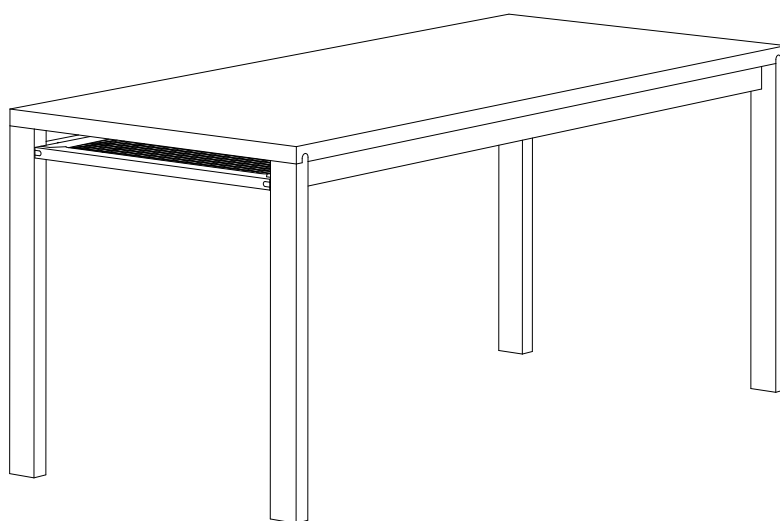

Wood Types

The colour combinations have been carefully chosen to be harmonious, neutral or in contrast with the other materials used in the table.

Able Table for 6

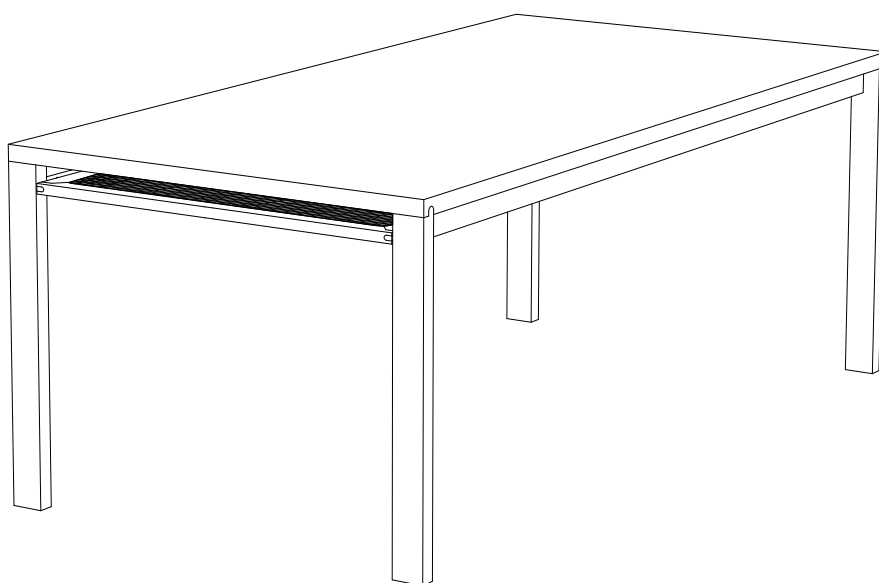

L 160 x W 80 x H 76 cm

Storage gap 4 cm

Min height 66,5 cm

Able Table for 8

L 200 x W 100 x H 76 cm

Storage gap 4 cm

Min height 66,5 cm
