

ATELIER COFFEE & SIDE TABLES

KLUSKENS

design: Claudio Di Palma

Kluskens Meubelcreaties

A family-run business, located in Nederweert in the Netherlands. Since 1974 we have been manufacturing highquality collections of solid wood tables, chairs and cabinets. Beautifully designed. Attractive and functional, made with love and an eye for detail. Dutch design, deeply rooted in local traditions and craftsmanship. At Kluskens we believe that furniture made of natural wood brings tranquillity to our hectic daily lives. This warm and honest material, with its weight and density, is a natural source of strength and energy. We are passionate about design and manufacturing. Obsessed with perfection. That's why the whole production process, from sawing and seasoning the wood to finishing the end product, takes place in our own factory in Nederweert. Allowing us to control and guarantee outstanding quality in all our creations.

Claudio Di Palma

Claudio Di Palma was born in Italy in 1986. He holds a Master's Degree in Industrial Design from the University of Campania (IT). He spent a year in Brussels as an Erasmus student at ENSAV La Cambre: the design school founded by Henry van de Velde. Since 2019 he has been working as an independent industrial designer in Amsterdam. He has developed projects for companies around the world and his products have been featured in many exhibitions. His design approach is led by the research of uncluttered elegance. Through his products he aims to create a serene yet refreshing atmosphere.

Atelier Coffee and Side Tables

The multiple lines milled into the top surface of the coffee and side tables invite a tactile experience, encouraging users to run their fingers along the wood and explore its unique texture. The grooves add depth and character to the tables. The interplay of light plays a crucial role: depending on the angle and positioning within the room, the grooves subtly emerge or fade, casting soft shadows and creating a dynamic visual experience. This ever-changing interaction between the surface and light brings a sense of life and movement to the space, making each table not just a functional item but a centerpiece that responds to its environment.

. On the left: Atelier in Oak Wood

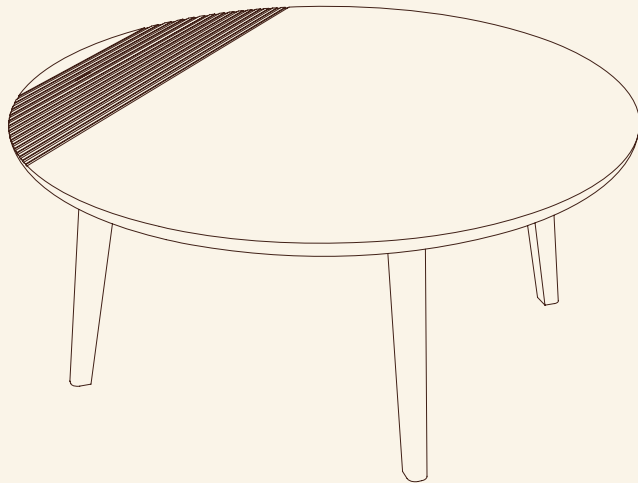

. Above: Atelier in Walnut Wood

Dimensions:

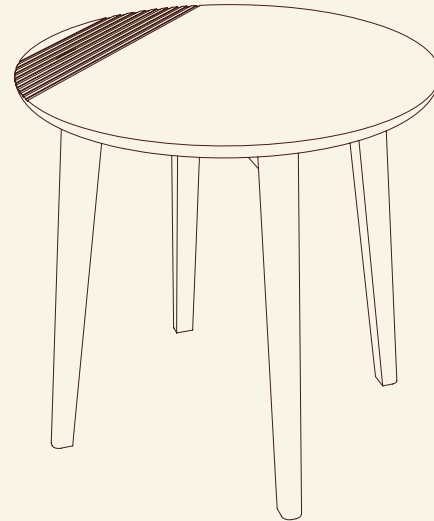

Coffee Table

Diam. 800 x 350 H mm

Side Table

Diam. 500 x 490 H mm
